Muhamad Ferdinal

Hello, I am a Software Developer, I started my career in the field of Software Developer starting 2019 until now, I am very interested in the field of
Web Developer and Web Design, as long as I started my career in the field of Web Developer, I explored more about updates in the field of
Software Developer so I can follow developments in the Software Development field.

Work Experiences

Agustus 2023 - Present

Backend Developer

PT. Rembon Karya Digital

During my work, I have helped companies develop, maintain, and create several websites

As for several partners who have worked with us during my work:
- Influencing Indonesia (INFINA)
- Kementrian Komunikasi dan Digital Indonesia (KOMDIGI)
- Atlas Education Services
- J-Trip Indonesia
- Educoffee
- Wakaf MES (Masyarakat Ekonomi Syariah)
- OPLA Monitor KODIM
- PAM International Cargo ERP

November 2022 - Present

Outsource Software Developer

Garap Digital Nusantara

Together with Garap Digital, I have built several applications such as travel service websites, websites with lead management, attendance systems, Hajj & Umrah travel systems, material recording systems that are integrated with IoT services and other projects.

Februari 2022 - Agustus 2023

Software Developer

Uncal Digital Technology

First of all I was given the responsibility as a frontend developer, my first project was to update the appearance of the company's products. Within three months, I managed to update the product to be better and the system became more flexible. I create that using HTML, CSS, and Vanilla JS (without Framework).
After that I was given responsibility for engine maintenance of the product which uses full java language.

November 2022 - Desember 2022

Freelance Web Developer

Mykiss Solution Technology

For 1 week I worked on several additional features such as a pick-up system from the airport and vice versa, and also made a multipurpose loan calculation system with the PHP programming language and used the Laravel Framework.
